DIGITALIATORS

DIGI TALIAT<>RS

Digital upskilling for senior citizens, focused on their everyday necessary online transactions, especially after the pandemic

ERASMUS+ KA2
STRATEGIC PARTNERSHIP
IN ADULT EDUCATION

Co-funded by
the European Union

"Never stop learning, because life never stops teaching."

The DIGITALIATORS project aims to help seniors develop the necessary skills and knowledge that are necessary for their everyday lives related to the internet. More specifically, they will learn how to pay online, make online transactions, create and use an email, use the internet safely, and communicate online with family and friends. In addition, adult educators will be offered innovative material that will be adapted to seniors' needs to help them update and enrich their classes.

RATIONALE

COVID-19 brought significant changes to our lives and created serious problems, especially for seniors. They felt scared and vulnerable during the pandemic and some still struggling with the increasing use of digital technology. Tasks like paying bills, taxes, and booking vaccine appointments online became challenging for many seniors. Many seniors sought help from their children or grandchildren to navigate online transactions, but the trend towards digital transactions continues to grow therefore, seniors need to become more comfortable with this kind of actions.

WHAT TO EXPECT?

Seniors should expect:

- Updated and innovative learning modules that can step-by-step guide them on online actions (communication with friends and family, emails, online transactions and payments)
- Videos with seniors who can identify with, acting online

Adult educators should expect:

- An online platform with material to be used for FREE to enrich their training and classes for seniors and with the possibility to interact with other adult trainers

Co-funded by the European Union
